1. Fire and flood damage.

The Fair offers a general insurance policy against fire and damage by flooding, covering all merchandise and the structure of the stands of exhibitors, who are obliged to declare their full value and pay the corresponding insurance premium.

2. Theft (not pilferage).

Voluntary insurance against theft does not include pilferage. During the opening hours of the fair, and during the periods set aside for setting up and dismantling, the exhibitor is directly responsible for the security of goods on exhibit in its stand.

3. Good transport including loading and unloading.

This policy only covers breakage and damage of goods from the moment they leave from their point of origin until their arrival at the Trade Fair. Included under the coverage is all handling of goods during loading, transport and unloading at the exhibitor's stand by personnel authorized to perform such activities within the Trade Fair halls.

4. Breakages during the Fair.

This policy covers risks of breakage that goods may suffer during the time they are being exhibited on the stand, including unpacking and packaging operations on the premises for subsequent display or removal goods, whoever the person or people causing the damage may be. This policy is therefore much wider in scope and coverage than the policy described in point 3.

5. Civil Liability.

To avoid the application The Civil liability policy covers damages with respect to third parties occurring as a result of any goods or machines on display, independently of obligation incurred by exhibitors of adopting all such safety and protection measures as required by current legislation. There is deductible coverage per claim of 150,25 euros.

6. Proportional Rule.

To avoid the application of the proportional rule, exhibitors are required to state the total value of all exhibited goods, including stand decoration and installations, when taking out Compulsory Fire and flooding as well as the Voluntary Theft Insurance policies. In the event of not filling out the corresponding inventory, the following values will be fixed for each 16m² module: Content: 2,400 euros - Stands: 450 euros.

7. Validity of Policies.

Insurances policies only provide coverage during the officially stipulated periods for setting-up, the fair itself, and subsequent dismantling. For this purpose, and in the exhibitor's own interest, we strongly recommend filling the form in and returning it by the given deadlines.

8. General Conditions.

In all cases, the general and specific conditions stipulated in the Trade Fair's policy with the Insurance Company will be applicable. In case there is any private fire and damage by flooding insurance agreements held by exhibitors certificate from your Insurance Company must be supplied expressly stating that it "renounces any right to reclaim against FERIA VALENCIA". In any case, "loss of profit" is not included.

Certificate and documentation must be sent to: servicecenter@feriavalencia.com or Fax: +34 902 747 345

9. VAT.

Application current VAT.

10. EXAMPLE 1

Company ABC has 128 sq.m. How is calculated the obligatory insurance?

- Number of modules = $128/16 = 8$
- For each module of 16 sq.m, the company has to pay 3‰ of the content (2.400€) and the stand (450€)
- $2.400€ + 450€ = 2.850€ \times 8 \text{ modules} = 22.800€$
- $22.800€ \times 3‰ = 68,40€$ is the amount of the insurance.

EXAMPLE 2

Company ABC declares goods for a value of 30.000€. How is calculated the obligatory insurance?

- $30.000€ \times 3‰ = 90,00€$ is the amount of the insurance.
