The water and drainage service is supplied exclusively through Feria Valencia from the main network located in the floor of the exhibition pavilions. Each water supply/drainage connection consists of a ½ inch section and drainage of 25mm diameter.

Both the main supply as well as the connections with the exhibitor should be accessible at all times; that is to say, they can not be covered by any fixed element, such as platforms or pavements. If these elements are being used, readily accessible registration covers must be available which require no special tools.

The water supply pressure in the exhibition pavilions are:

PAVILIONS	PRESURE
